MIGRATION INFORMATION ITALY

Further requirements:

Procedures have been adopted for migrants using Directive 92/51/EEC.

The Italian association has automatic recognition of migrants from other EU (European Union) countries (except Germany). Italy reserves the right to prove individual cases and require aptitude tests if necessary. The aptitude test requires an oral and practical examination. Adaptation periods are however not required.

Knowledge of the host country's language must be achieved. The migrant physiotherapist does not have to serve any special conditions to become a member of the Italian physiotherapy association.

Please contact the Italian Association for further details.
